DX/SWL/MEDIA PROGRAMS update Nov 29:
http://www.worldofradio.com/dxpgms.html

WORLD OF RADIO HITLIST update

Hi Glenn, my latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) Bulgaria - R Bulgaria: Updated links to point to new web domain.

2) China - Hello Xizang and PBS Xizang: Temporarily removed all links as www.vtibet.com times out and www.vtibet.cn seems to redirect to a potentially unsafe page.

3) UK - FEBA Radio: Updated link to home page (new domain name)

4) USA - R Martí: Updated link to frequencies (it's only for A-25, but better than previous B-23 link)

5) USA - WRMI: As the official WRMI schedules are so complex, and often inaccurate, I have added another alternative listing of WRMI programmes, this time provided by Tony Rogers on his dxguides.info website

The next update is scheduled for 1 January 2026
Best wishes and 73, Alan Roe

** BRAZIL. 11756.2, Nov 28 at 2314, JBA carrier, surely R. Voz Missionária variant today, nothing on 11750 or 11755, while RNA is big on 11780 (Glenn Hauser, OK, WOR)

** BRAZIL. 11757.47 approx., Dec 3 at 2323, JBA carrier, presumably latest skewage of R. Voz Missionária, nominal 11750 (Glenn Hauser, OK, WOR)

** BRAZIL. 11780 S9+5/10 and much weaker 6180, Nov 27 at 0752 in token English but this bit is about electronic music at COP30 Belém, so not much talk from RNA; 0755 into Espanhol (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Nov 28 at 0731, RNA is on already, the SSOB by far, S5/S9 with music. Only othersigs are JBA/carriers on 11640, 11700, 11750, 11760. // 6180 RNA is on but much weaker, JBA S6/S7 direct (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Dec 2 at 0750, no signal from RNA when token English would air; 6180 JBA carrier. Bad prop or really off? Nothing else listed by Aoki & EiBi at this hour on 6180 (Glenn Hauser, OK, WOR)

** BRAZIL. 28411 USB, Dec 3 at 2307, PU2TWZ, in São Paulo, contacts including WA4TW at 2308. QRZ.com: ``PU2TWZ Brazil flag Brazil, Jroberto, ROBERTO "Roberto" LEONEL, Avenida Andorinha 182 Cep 13197428 Monte Mor, sp 55, Brazil`` - I thought he said name was Oscar but maybe that was a contact.

28415 USB, Dec 3 at 2310, PY3ZA apparently contacting another Brasilian. QRZ.com: ``PY3ZA Brazil flag Brazil, ALEXANDRE "XANDAO" FOLATRE, RUA MARIA ODETE DE OLIVEIRA CHARAO 363, Alvorada, RS 94859060 Brazil`` (Glenn Hauser, OK, WOR) see also unID 25955 LSB

** CANADA. 351 MCW kHz, Dec 1 at 0734 UT, dash and YKQ, 500-watt NDB at Waskaganish, Québec. Under current prop and noise situations, seldom hear any Canadians other than 346 YXL, but right now, YKQ is better. ``Waskaganish is a Cree community of over 2,500 people at the

mouth of the Rupert River on the south-east shore of James Bay in Nord-du-Québec, Canada`` - distance 2259 km = 1403 stmi. Seldom heard: Jan 23, 2024 and March 19, 2023 (Glenn Hauser, OK, WOR)

YXL: see PUERTO RICO [and non]

** CANADA. 2598 USB, Nov 30 at 0058, RoboYL with Environment Canada marine weather, times Atlantic, S9 direct. DXinfocentre.com shows the last station to start in rotation was VCP4, Placentia, Newfoundland, at 0048, 3 kW. The next would be VCM, St Anthony (Labrador) at 0107 with 600 watts.

2749 USB, Nov 30 at 0059, slightly weaker but still S9 peaks in French: that would be VCO, Sydney NS, from 0040 with 550 watts, to be followed by 0140 by VAR-9 Yarmouth (Halifax), 1200 watts (Glenn Hauser, OK, WOR)

** CANADA. 2749 USB, Nov 30 at 0719 UT, marine weather in French, S7. dxinfocentre.com does not show any starting before 0740, VCO Sydney NS (Glenn Hauser, OK, WOR)

** CHINA. 17645-17650-17655 & 17765-17770-17775, Nov 30 at 0109, DRM noises at S9+10/20 direct. EiBi shows CNR1 Digital, at 01-06 on 17650 from site k=Kunming; and 01-09 on 17770 from site d=Dongfang, Hainan. There are plenty of JBA AM carriers on band with Doppler flutter, but nothing on higher bands (Glenn Hauser, OK, WOR) see also CUBA 13650, 5990; MALI

** CUBA [and non]. 670, Nov 27 at 0751 UT, wobbler JB audible under WSCR (Glenn Hauser, OK, WOR)

** CUBA. 5025, Dec 2 at 0756, S9+20/30 of dead air in Spanish from R. Rebelde. Something`s alway wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 15140, Nov 27 at 1529, RHC music S9+20/30 including windhowl. Only other is 11760 at 1534, S9/+5 undermod Spanish. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [non]. 15140, Nov 28 at 2035, no signal from RHC, not even wind-howling here, amid the ``English`` hour nor on any former/possible frequency, 15230, 13780, 11880, 11760. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [and non]. Zero known RHC frequencies on air, Nov 28 at 2320 just like 3 hours earlier; but 5025 Rebelde is on, as are CRI relays on 13650, 5990. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Nov 30 at 0115, S9/+15 of deadair; no sigs on 13 or 15 MHz; and 6000, Nov 30 at 0125, S9+20/30 of deadair, from RHC, where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA. 11880, Sun Nov 30 at 1618, RHC Esperanto only here, S9/+20 with good modulation. No signals at all on 15140, 13780, 11760. However, 11760 was on with S9 music at 1544. Io ĉiam estas malĝusta ĉe RHC (Glenn Hauser, OK, WOR)

** CUBA. 6000, Dec 1 circa 1235, strong deadair from RHC, as I am unfortunately awake; SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710, Dec 1 at 0535, RHC S8/S9 but JBM, English? Nothing on 6000 now. But at 0538, 11760 deadair with windhowl, S6/S7. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11880, Dec 1 at 1625, RHC S7/S8 with music, only frequency on

right now, OK modulation (Glenn Hauser, OK, WOR)

** CUBA. 11880, Dec 1 at 1957, retune-in just in time to hear music mod cut off but carrier remains at S9+10/15 into Georgia SDR. 15140 is also on at S9+10, no mod but windhowl. So once again RHC silences itself just before English can start at scheduled 2000. No signal on 11760. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13650, Dec 1 at 2303, Chinese music filler for years instead of CRI Portuguese relay, VG S9+10. No RHC 15s, 13780 on air but also: 11760, S9+10 huge windhowl noise; 11880, S7/S9 of dead air; 5990 at 2315 CRI English relay S9+10/30. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 2 at 2044, RHC English is back on, S9+30 but hard to hear under the windhowl; // 11880 is VG clear modulation and S9+25/35 signal into Georgia SDR (Glenn Hauser, OK, WOR)

** CUBA. 11880, Dec 2 at 2129, RHC IS and Portuguese ID, program, VG direct. WRTH *2025* showed PP at 2130-2200 on 15140 for *North* America; only other on at 2300-2400 on 15230 for S America, not found lately. Was the 23 including a replay of the previous half-hour? By 2259 today, 11880 is off; 11760 windhowl at S9+20 and still no mod at 2320. However, S9+20 dead air on 13650 at 2259 becomes CRI IS at 2300, Chinese ID and s/on in ``Portuguese`` to be music fill only. Fairly good modulation level but somewhat distorted, tsk2. SAWA RHC & RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11880, 11760, 15140, 13780, 15230, Dec 3 at 2044 all RHC frequencies are OFF. Another check at 2321, still all those off, and not even the China relay on 13650; lower bands not checked. SAWA (Glenn Hauser, OK, WOR)

** CUBA [non]. 11860 & 11930, Nov 28 at 2315, R. Martí still on here, no more on 13 or 15 MHz, with ``Las Noticias Como Son`` promo over and over for 4 & 9 pm airings. I suspect this be a play on words. ``Como Son`` could mean ``as it is`` as well as ``like a sound`` = short for sonido (Glenn Hauser, OK, WOR)

** CUBA [non]. 15380, Nov 27 at 1530, no signal yet from R. Martí, but 1533 already on VG 13570, 13820, 11930 (Glenn Hauser, OK, WOR)

** CHILE. 28495 USB, Dec 3 at 2313, CE5VKK contacting KA9G. QRZ.com: ``CE5VKK Chile flag Chile, Boris Monares, Avda. 101 Condominio 1777, Casa 6, Concepción 4030000, Chile`` (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 9590 // 9800, Dec 1 at 2307, music and Chinese, S9+20/30 with flutter, CRI as scheduled in Spanish to S America via Kashgar, land of imperialist ChiCom cultural genocide against Uighurs and other Moslems (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Nov 27 at *1500, TDF with MiniTransAt, S5/S7, after OC, 1500.5 thememusic, 1502 YL in English, 1503 wind info. Seems English only now, as the two straggling sailors toward Guadeloupe must not be French Fpeaking. 1527 recheck after breakfast, off, probably much earlier (Glenn Hauser, OK, WORLD OF RADIO 2323)

** FRANCE. 21660, Nov 28 at 1508 tune-in, MiniTransAt already in music, and off by next check 1515. One of these days it will be finished until next fall (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Nov 29 at 1510 tune-in, MiniTransAt with music S5/S7 direct, so one or two sailors must still be asea on way to Guadeloupe and in need of windfo at 1500 (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Nov 30 at *1500, MiniTransAt cuts on with theme, then YL in heavily-accented English. Wish I could have copied exactly what she said about status of the race, which should be well over by now. By 1509 recheck in music; by 1525 recheck, off (Glenn Hauser, OK, WOR)

** FRANCE. 21660, MiniTransAt: I missed checking Dec 1 & 2, so unknown whether still transmitting, at least for a few minutes at 1500 daily. Anyone notice? Will try to get it Dec 3 (Glenn Hauser, OK, WOR)

** FRANCE. Re my missing checking 21660 Dec 1 & 2, From Terry Krueger, Dec 2: ``Glenn, MiniTransAt: They were on 1500-1515 at the usual 21660, local level here in NW Florida. If I copied the heavily accented lady, it was scheduled to be the last transmission as the remaining boat was approaching Guadeloupe later in the day. Worth checking again tomorrow. Did it take Columbus, Ponce de Leon, Narvaez et al this long to cross the Atlantic?``.

21660, Dec 3 at 1500 past 1503, no signal from MiniTransAt, so apparently finished, and on same rx I keep checking 5140 for OK security net, q.v., and hear some of that. There is a JBA carrier on 21690, from France, so prop is sufficient despite K-index of 4.67. But by next check of 21660 at 1510, it`s *on with music, S4/S6, and by nextnext check at 1515 it`s off* already (Glenn Hauser, OK, WOR)

** JAPAN. 28475 USB, Nov 28 at 2308, Kohji, JG1HQA near Tokyo contacting an N9. QRZ.com: ``JG1HQA Japan flag Japan, KOHJI SATO, 13-12 HEMIGAOKA, YOKOSUKA-CITY, KANAGAWA 238-0044, Japan`` (Glenn Hauser, OK, WOR)

** JAPAN. 28420 USB, Dec 2 at 2314, JA1NFM, Hiro making a contact. QRZ.com: ``JA1NFM Japan flag Japan, Hiroshi "Hiro" Takahashi, 1150-81 Shikawatashi, Yotsukaido Chiba 2840003, Japan`` (Glenn Hauser, OK, WOR)

** KURDISTAN [non]. 11500-11550, Dec 3 at 1547, no signals from Dengê Gel nor Turkish jammer, so it`s really all over per this:

``I have just found this news: `Radyoya Dengê Gel, which for years was the voice of the Kurdish people from the mountains to the prisons, has ended its 23-year broadcasting life` [...] One of the coordinators of Radyoya Dengê Gel, Mustafa Rêzan, stated that the first radio broadcasting in Kurdish media began in October 1992 with Dengê Kurdistana Serbixwe and continued in 1995 with Dengê Mezopotamya. [...] this journey continued in 2012 under the name Dengê Kurdistan. [...] Dengê Kurdistan continued steadfastly until 2016, after which it went on under the name Dengê Welat, and from 2023 onward under the name Dengê Gel...`
english.anf-news.com/news/the-voice-of-the-revolution-radyoya-denge-gel-has-ended-its-broadcasts-82451
via Alan Holder, G4ZBH, Isle of Wight, U.K.``

What is ANF? Ajansa Nûçeyan a Firatê which means Euphrates News Agency, in Kurmanji Kurdish (Glenn Hauser, OK, WOR)

** MALI [and non]. 13685, Dec 3 at 1545, S4/S6 discussion in English about China, so CRI Bamako relay to EAfrica as sked; with 13830, Vatican listed in Amharic, the only significant overseasigs on band, beyond the USAs blasting on 13570, 13820, 13845 (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 28228 CW, Dec 2 at 2304, EEEEEEE DE ZL3TEN, beacon without a /B, fadey. Not in QRZ.com but WGB list: ``28228.0 ZL3TEN - Rolleston, Christchurch NZL RE66ej - #0 (21 Oct 2024) Note: ID + grid + eee`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6933.5 AM, Nov 29 at 0124 UT, JBA pirate talk and music, S7/S8. These say it`s Captain Morgan Shortwave Radio: https://www.hfunderground.com/board/index.php/topic,154502.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6927 AM, an even weaker JBA signal than 6933.5, maybe another pirate on a Friday night, 0125 UT Sat Nov 29. Nothing lately in HFU tho Liquid Radio was on 6925 an hour earlier. Hardly ever do I hear a pirate well enough to enjoy the music, much less try to ID it, so I`m glad to leave that to others (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6965 USB, Nov 30 at 0123, S9+10/20 direct of Bluegrass; 0139 & 0146 brief `Wolverine Radio` IDs. Only pirate audible on band and this one *is* strong enough to enjoy the music, which I don`t recognize and is not identified; off around 0155*. Must have a considerable transmitter. Is it really in Michigan as implied? (Glenn Hauser, OK, WOR)

** OKLAHOMA. 255 MCW kHz, Dec 3 at 0716 UT, no signal from SW, NDB at StillWater, nor recently, but now I`m sure it must be off, since much furthers are now audible vs noise level, such as 245 FS Sioux FallS SD, and 251 AM AMarillo TX. More at USA (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 338 MCW kHz, Dec 1 at 0735 UT, TU, unknown power NDB at `Oillr`, Tulsa. Hepburn list says 30 watts (Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed Dec 3 at 1503, WNPV700 in Durant checking in to a net. Strongest signal heard of group, and the NCS is much weaker almost JBA; WPFY721, previously located as in Seminole. I started monitoring about 1459, but on a single receiver switching back and forth with 21660 FRANCE, q.v. Also possible alt 7477 USB, but which after 1500 was hit by splat from 7490 WWCR. Rollcall with a number of callsigns in same format, 4 letters fonetikaly and three numbers so the letters are more likely to be accurate than the numbers. But replies mostly uncopied, including: WNUW215?, KNBR72#? Pontotoc County, WN##212, WNBM839 Stillwater, and definitely WNBE830 in Jefferson City MO, i.e. the net to follow this one.

At 1508 mention Oklahoma Operational Security Net, I think, and refers to next week, hoping for more checkins than this week, with no-shows. Just before 1509, ``WPFY721, clear`` but then another contact from Missouri. Recheck at 1530, algo JBA, presumed Missouri net but likely to be even less audible than the OK, I don`t attempt to monitor any further. See my previous log/reports about this Oct 1 at: https://www.w4uvh.net/ghlogs_2025_0925_1001.txt (Glenn Hauser, OK, WOR)

** OKLAHOMA. 95.1, here`s more about the OG&E pirate/part 15 transmitter again on the air in Enid, from Nov 28`s newspaper:

``Enid Lights Up the Plains back for 32nd year
Kevin Hassler | Enid News & Eagle 22 hrs ago

ENID, Okla. – Christmas will take over downtown as Main Street Enid presents its 32nd Enid Lights Up the Plains celebration Friday, Nov. 28, 2025.

“Each year, Enid Lights Up the Plains brings our community together in the heart of downtown,” said Natalie Rapp, executive director of Main Street Enid. “This event has become a tradition for Enid residents and visitors to kick off Christmas, and this year we celebrate the 32nd year. We can’t wait to see downtown glow and families making memories together.”

Events will begin at 5 p.m. and will include carriage rides, barrel train rides, live music, photos with Santa, Christmas vendors, food trucks, shops open late, the OG&E Tree of Lights, the Parade of Lights and the popular Park Avenue Thrift grand firework finale.

The live band providing holiday tunes will include Sean Gallagher, Kegan Tuohy, Steven Harwood, Katie Pearce, Dave Roberts and Barton Bailey.

At 6, Ryan Sudlow will present the OG&E Tree of Lights show on the Garfield County Court House lawn.

“He’s been a wonderful volunteer who spends hours and hours and hours programming the light show on the courthouse lawn,” Rapp said. “He’s wonderful and does that all for free. We’re excited to add a few new songs for that.”

The tree light show will be choreographed to music each night through the Christmas season after Friday’s festivities. The show will start at the top of the hour at 5 p.m. and continue every 30 minutes until 11. Watchers can tune their vehicle radios to 95.1 FM to hear the music as they watch the lights.

The Parade of Lights will begin at 6:15, with individuals and groups with decorated vehicles, trailers and floats parading around the downtown Square.

The fireworks finale, which is a big hit with the crowd, is set for 7:15....`` However, even inside our house, we could hardly escape the noise pollution of fireworx explosions at 0117-0127 UT Nov 29.

Presumably, 95.1 will keep playing music long after this event, for the rest of the `season``. Sounds like fun? Not so much; it`s 52 degrees, wind S at 17 mph resulting in windchill of 47. Even tho the activities are in the frigid outside, it`s still a super-spreader event as no one else in Enid ever wears a mask but us; so we haven`t been to one in the COVID era; never again?

BTW, this mere ``Tree of Lights`` is not to be confused with ``The One, Christ Tree`` a very tall fake Xmas ``tree`` re-erected each year a few blox to the south, whose big event will occur tomorrow. AFAIK it lax any FM transmitter. But it`s backed by the owner of KGWA who promoted Lush Rimbaugh and still his ilk to our beloved community (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.1, Dec 1 at 2030 UT, OG&E `Tree of Lights` in downtown Enid, still on, but dead air in $tereo when I check. It might still resume over the next month with music like last year past Xmas. I photoed the sign about it, much like last year. New one:
https://www.w4uvh.net/95.1_OG&E_Enid_1225.jpg
It`s still on but DA in $ at 1810 UT Dec 2, audible more than a mile away, but not enough to completely block the KS & OK fringers normally vying on 95.1 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 93.1, Dec 2 at 1810 UT, while checking the 95.1 OG&E in Enid, I also notice a stronger deadair in stereo on 93.1, which is normally clear for the fringer in KS if not southern OK. Haven`t driven around yet to assess its range, but used to be a translator here, still licensed as in FCC LMS: 93.1 K266BR, #156415, Donald Williamson, P O Box 246, Weleetka OK 74880, licensed, expires 6/1/29; as of 7/24/07, site on the decrepit Broadway Tower in downtown; so I have emailed him: ``Mr Williamson, I am hearing an open carrier in stereo here in Enid on 93.1 MHz, so I wonder if this is your K266BR which used to translate KIMY, about to resume after several years off? Or it could be someone`s idle RF feeder such as in a car. Regards,

Glenn Hauser, Enid`` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 93.1, Re the dead air in $tereo, it`s gone later Dec 2 circa 2130 UT, which is neither here nor there. Meanwhile my inquiry to Donald Williamson at the email address of record at FCC LMS, bounced: ``Sorry, we were unable to deliver your message to the following address. <dwilliamson@onalot.com>: Unable to deliver message after multiple retries, giving up`` Maybe changed to offalot?! The DA is on again Dec 3 at 1800 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. Dec 3 at 1950+ UT, driving around Enid checking the 93.1 dead air in $tereo. Not just in my neighborhood, but seems stronger circa downtown, so perhaps on the east side. At 2028 I`m at the junxion of US 412 & US 81, where 1680 AM peaks, and now on 93.1 there is some intermittent undermodulated Xmasmx, and at 2033. No modulation at all from this until now. Seems to be from this transmitter rather than an understation which would be more confusable on AM.

95.1, meanwhile is off while I am downtown, but later at 2028 seems to cut on and off sporadically with music, again not like would be heard from the real KS or OK fringers.

1680 kHz, Dec 3 at 2000 UT, hourtop ID as Virtual DJ Radio, into Xmasmx medley starting with Jingle Bells (Glenn Hauser, Enid, WOR)

** PHILIPPINES. 17665, Dec 1 at 0248, R. Pilipinas in English has been reactivated, via USAGM Tinang site, S7/S8 into Udon Thani, Thailand SDR. Almost as good on // 15640 but not on // 12020. Other monitors thought it went off at 0230 instead of scheduled -0330, but there must have been interruptions, and resumptions on one frequency or another (Glenn Hauser, OK, WOR)

** PHILIPPINES. 12120 // 9925 // 9370, Dec 1 at 1835, R. Pilipinas 1730 Tagalog service also reactivated, from USAGM Tinang site, all three about the same VG into Hyderabad, India SDR, S9+10/30. IIRC, there could be English segments included (Glenn Hauser, OK, WOR)

** PUERTO RICO [and non]. 391 MCW kHz, Nov 27 at 0744 UT, DDP at Dorado PR, and stronger 346, YXL Sioux Lookout ON, both audible at same time, besides several USA in between (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Fri Nov 28 at 2300, perfunctory check of REE even tho it`s not a possible English day, best here but barely; also on 12030, and JBA carrier on 17755 while the NAm frequency 9690 remains imaginary (Glenn Hauser, OK, WOR)

** SPAIN. 12030, Wed Dec 3 at 2300, REE S7/10 direct off the back of ME beam, and S9/+10 on 17715 aimed at S America, still no signal on imaginary 9690 for N America. But as anticipated, NO ENGLISH, rather Spanish program `La Sala` as on their advance schedule.

Ahead of time, I posted to the WOR indian ocean group: ``If it`s Wednesday there must still not be any English from Spain. Advance program sked for Thu 0000 local time shows something in Spanish; nor Wednesday at 12 local.
https://www.rtve.es/play/guia-rne/radioexterior/manana/
nor any other time. And the last English podcast is still dated 19 Nov, with the two ex-announcers Amy & Marilyn still heading it:
https://www.rtve.es/play/audios/english-language-broadcast/
Glenn``

Alan Roe replied: ``I have emailed englishbroadcast@rtve.es and english@rtve.es to let them know that I am missing their English programme and wondering what is happening. I'll let you know if I get any reply. In the meanwhile, it wouldn't do any harm if other

listeners also wrote to those email addresses asking where English programming is. Alan Roe, Teddington, UK``

I replied: ``I`ve finally just listened to the end of the last podcast, Nov 19 starting about 55 minutes into the 62+ minute file, ``We`ll meet again...`` song. Marilyn does not say there would be two new hosts the following week, but rather ``in future programs``. But we should keep after them about this. Glenn``

And from Jean-Michel Aubier, France: ``The latest French-language podcast was released on Nov 18. I also wrote to the team`` (Glenn Hauser, OK, WOR)

** SWITZERLAND [non]. 3955, Sat Nov 29 at 2200+, a monthly C.M. Obrecht music hour via Channel 292, VG S9/+15 into UTwente, nice classical/seasonal music rather than electronic stuff. Immediately followed by Pop Shop Radio at 2300 starting with 4-note O Ca-na-da sounder (Glenn Hauser, OK, WOR)

** TIBET. 4920, Nov 30 at 0057, JBA carrier direct. Both EiBi & Aoki show nothing but Xizang RTV, Lhasa, TB for almost 21 hpd except the couple hours in English at 07 & 16. I was also getting a JBAC on 5060 no doubt from Xinjiang. Oh oh, 4920 could be 3 x 1640 my local KZLS - but I don`t get even a 2x harmonic from it on 3280 (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960, Nov 28 at 2258, no signal in English from VOT direct; algo fluttery S9+10/20 on accidentalternate 9610. But at 2341 into UTwente, only Chinese on 5960 and algo not VOT on 9610. Something`s always erroneous at Emirler. Furthermore, this prevents any extraneous German from airing at 2400! (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Sat Nov 29 at 2302, no signal from VOT into UTwente; algo JBA on 9610.000, surely something else achieving such exactitude. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 9660.018+, Sunday Nov 30 at 1752, VOT English, S9+15/20 into UTwente concluding `The Pulse of Turkish Foreign Policy`, ``always-by-your-side`` promo. 1753 start `Letterbox`, which Cemre says will last 20 minutes, but axually 26. 1) USA, Steven Martin?, got 6125 at 0435 via SDR in Michigan. 2) UK, Paul Prokop?, NW England. 6 reports since Sept, with details from each read out. Considerable ACI from plus side, and then UTwente starts dropping out. I hasten to bring up another at random, Wessex UK. But I miss even more details than usual. 3) Mr Zhan?, using Netherlands SDR. 4) Kama? City, Japan, likes Turkish music, listened at 3 am local time to 9660. 5) Aman?, India, listener for 4 decades, has listeners club. 6) Mr Baine?, India, VOT glad still to provide hard-copy QSLs. Turkish TV programs popular in India, family values; SWL club. Now it`s 1812: 7) Mohammed Haidar? Hassim?, Malaysia. 8) Jayanta Chakraborty, New Delhi, VG signal on 6125 - he keeps reporting the NAm frequency at 0400, not the S Asian one: is it really better? 8) finally, Mohammed --, India, listener since 1985, in 344-member SW club on FB, wrote in ``Roman Urdu`` but this is still in English. 1818 concludes, 1819 theme and multi-lingual ID filler reel (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 1 at 2300, not off the air, timesig and VOT S/on in English as if it`s 13635 at 1330! Something`s always awry at Ankara. Despite S9/+10 on meter direct it`s really too noisy to hear (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 2 at 2256-2300+ no signal direct from VOT; at 2257 also music on 9610 but not the TRT IS. At 2335 into UTwente, weak Chinese on 5960.000+, and something else not VOT on 9610, which could be an accidentalternate past sked -2230*. Something`s always erroneous

at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 3 at 2259, no signal direct from VOT; at 2332, not either into UTwente, just ChiCom stuff on 9610 as well. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U S A. 341 MCW kHz, Nov 27 at 0737 UT, DNI, 25-watt ND beacon at DeNIson TX, rarely audible but Enid`s EI no longer obstacle (Glenn Hauser, OK, WOR)

** U S A. 344 MCW kHz, Dec 1 at 0542 UT, JA, 400-watt NDB at `Dinns`, JAxonvil FL, a kilomile away (Glenn Hauser, OK, WOR)

** U S A. 359 MCW kHz, Dec 1 at 0732, GGF, power unknown to RNA list, NDB at Grant NE. Seldom heard. Hepburn list says 25 watts (Glenn Hauser, OK, WOR)

** U S A. 385 MCW kHz, Dec 1 at 0730 UT, UWL, 25-watt NDB at New Castle IN, and mix from something else. Several in USA, but HO, 50 watts at HOt Springs AR, heard before (Glenn Hauser, OK, WOR)

** U S A. 407 MCW kHz, Dec 1 at 0545 UT, HRU, Herington KS, a nearby regular, unusually has CCI from an understation repeating at almost the same exact period, and happens to send most of its ID during pauses between repeats of HRU: OO#, but the third letter is mixing with the H of HRU. RNA list shows it must be: OOC, `Campi`, Natchitoches LA, 25 watts on a period of 7.794 seconds, while HRU`s period is 7.890 (Glenn Hauser, OK, WOR)

** U S A. 410 MCW kHz, Dec 1 at 0548 UT, BA, 25-watt NDB at `Clifs`, Columbus IN. New or seldom heard (Glenn Hauser, OK, WOR)

** U S A. 426 MCW kHz, Dec 1 at 0549 UT, JBA carrier: I have been checking for this especially, since only one North American is listed on this outlier frequency: UV, 25 watts at `Tunng`, Oxford MS. My local noise problem is slightly less above than below 300 kHz (Glenn Hauser, OK, WOR) definite UV log below

** U S A [and non]. NDB bandscan direct, Dec 2 at 0720-0732 UT:
definite new logs:
419 RYS Detroit/Grosse Ile MI, 25 watts, decommissioned per Hepburn but still heard in Nov per RNA
[Also coincidentally also just reported in MARE Tipsheet:
``419 RYS USA MI Grosse Ile 1749 23/Nov --Zichi MI2 Port Hope``]
426 UV Oxford MS 25; carrier last night now with ID, only one anywhere

Unusual but not new:
245 FS Sioux FallS SD 400
251 AM AMarillo TX 100
267 HET HenryEtTa OK 25
351 YKQ Waskaganish QC 500

Nearby TV set birdie:
386.5 QRT when TV turned off

JBA carriers, intriguing possibilities:
260 TX, NC, MS, FL, MO, Norfolk Island
272 MI, IL, TX, IL, WI, TX, AK, Lord Howe Island
275 GUY Guymon OK 25 W; IL, NE, QC, NC
423 only: SIF Reidsville/Slammer NC 25 or PCW Port Clinton OH 25 W (Glenn Hauser, Enid OK, WOR)

** U S A. 257 MCW kHz, Dec 3 at 0718 UT, JYR, 25-watt NDB at York NE, seldom heard; first copied, seemed to be OYR, missing the first dit.

344 MCW kHz, Dec 3 at 0723 UT, JL, NDB at `Lunns` JopLin MO, with CCI probably JA, 400 watts at Jaxonvil FL also heard recently. See also OKLAHOMA [and non] (Glenn Hauser, OK, WOR)

** U S A. 8992 USB, Dec 1 at 1939, USAF crypto exercise message fonetikaly starting with AKGZKU repeated by YL voice, vs some background noise sounds like mis-tuned music, swells during her pauses. Then ``message of 45 characters follows`` as always starting with the six just previewed. Did not copy it all; noticed very few numbers included vs letters. Also audible on USBs 15016, 11175 and JB in daytime on 4724. ``I say again``, long pause and then whole thing repeated, ending at 1943 with ``This is pilch, out`` -- the tactical call never repeated, and that`s only what it sounded like (Glenn Hauser, OK, WOR)

** U S A. 15016 USB, Dec 3 at 2302, USAF EAM crypto message with echo, also on // 11175 USB & 8992 USB which have self-imposed? crackles and less of an echo, more like reverb. Alfanumerix in progress, ending with message had 164 characters, more than usual: we can only wonder if this concern real current military operations rather than practice? ``This is start-gun, out`` Sounded like, not sure of ever-changing tactical call, at 2304. But after a pause, starts all over, ``All stations, this is Start-Gun``, twice; then intro as ``7D2LTJ, stand by`` a few times before repeating the entire message starting with those (Glenn Hauser, OK, WOR)

** U S A. 28296 CW, Dec 2 at 2307, VVV VVV DE KA7BGR CN82nk and without a /B. WGB list: ``28296.0 KA7BGR - Central Point OR USA CN82nk - #0 (07 Feb 2024) Note: VVV - CN82nk. EEE - Pwr 10w`` (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2322 monitoring: confirmed UT Thursday November 27 at 0030 on WRMI 9395, S9+30/40 into Georgia SDR.

Also confirmed UT Thursday November 27 at 0130 on WRMI 5010, S9+30 into Georgia SDR and seems so co-channel QRM but probably rx overload.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2323 monitoring: confirmed Friday November 28 at 2156 the 2130 on IRRS SW via AM Italia, 1322.997, S9+15 VG into nearby Noale SDR; followed at 2159 by `Counterspin`, opening of the program, not a separate promo, until chopped for ID and 2200 Feature Story News. How rude! Counterspin is an excellent program and deserves to be heard in full on a regular schedule.

WOR 2323 also confirmed Friday November 28 at 2300 on WRMI 9955, S9 +20/30 direct but as always on this channel, sounds undermodulated; immediately followed a show playing `California Dreaming` and a quick WRMI ID from it to conclude rather than a full WRMI canned ID.

Also confirmed Friday November 28 at 2335 the 2330 on SW Radio Gold, Germany, 3975.003, VP S6/S7 into UTwente; better S9 on 3975.002+ into Noale, Italy SDR which I use mainly for 1323; best into recommended Barney`s at Bedford UK, S9. Next:

NOT UT Sat Nov 29 at 0400 on WTWW 5085, because George McClintock notified me at 0055 that the transmitter is down again: one of two heat pumps failed; it can operate on one, but will have to be rewired first, so a plumber is expected on Monday to do that and get back on the air by next week.

0930 UT Saturday WRMI 7570 to NW;
1530 UT Saturday SW Radio, Germany 6160 3975;
1630 UT Saturday WRMI 9955 to SSE;
1700 UT Saturday WRN via WRMI 9395 to NNW;

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2323 monitoring: confirmed UT Saturday November 29 at 0530 on Voice Corps, Columbus OH webcast.

I happen to awaken at 0930 UT Saturday November 29, so check WRMI for WOR: indeed not on 9455 as still on their skedgrid, but on 7570, S9+30. Any others? I hear JBA talk on 7730, but finally decide it`s not me.

Confirmed Saturday November 29 at 1552 the 1530 on SW Radio Gold, Germany, 6160.001+, S9/+10 into UTwente with usual ACI from stronger China 6165 S9+15/20; but in the clear on 3975.002+, S9/+10.

Also confirmed Saturday November 29 at 1630 on WRMI 9955, S9+20/25 into Georgia SDR.

Also confirmed Saturday November 29 at 1700 on WRN via WRMI, 7730, S7/S8, and 9395, S9+15/30 into Georgia SDR.

Also confirmed Saturday November 29 at 1830 on SW Radio Gold, Germany, 3975.003-, S9/+10 into UTwente.

Also confirmed Saturday November 29 at 2030 on WRN via WRMI 9395, S9+10/30 into Georgia SDR.

Not confirmed Sat Nov 29 at 2030v on WA0RCR, 1860 AM, MO: not enough signal into the usual remotes to detect me at various chex 2025/2110, but probably on.

Confirmed Saturday November 29 at 2200 on WRMI 9395, S9+30 into Georgia SDR. This one is not from WRN feed.

Confirmed Saturday November 29 at 2237 the 2230s on WRMI 15770, S7/9+10 into Maryland SDR, but 17790 is only JBA S4/S6.

Confirmed Saturday November 29 at 2237 on WRMI 17790, S7/9+10 into Brasila SDR.

At 0000 UT November 30, George McClintock advises me that the 5085 WTWW transmitter can get back on air already, and will try to get WOR 2323 on air not tonight, but UT Monday at 0400. At 0130 check, 5085 is VG direct with JBA parasitic spurs +/- 12.8 kHz. Next:

0330vUT Sunday WA0RCR 1860-AM [nominal 0415; as late as 0500];
0730 UT Sunday WRN via WRMI 5850 to NE;
0730 UT Sunday WRN via WRMI 7570 to NW;
0730 UT Sunday WRN via WRMI 7730 to NE;
0730 UT Sunday WRN via WRMI 7780 to SW;
0730 UT Sunday WRN via WRMI 15770 to NE;
1030 UT Sunday IRRS SW 9510 [new];
1130 UT Sunday WRN via WRMI 7570 to NW;
1130 UT Sunday WRN via WRMI 7780 to SW;
2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0400 UT Monday WTWW 5085 [special time];
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2323 monitoring: confirmed UT Sunday November 30 at 0429 about two minutes into so started at 0427 UT on WA0RCR, 1860 AM, MO, S9/+20 into Georgia SDR.

Also confirmed Sunday November 30 at 0733 the 0730 on WRMIs direct: 5850 S9+10, 7570 S8, 7780 S7. Too weak on 7730 to tell, and 15770 not propagating. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0400 UT Monday WTWW 5085 [special time, maybe];
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2323 monitoring: confirmed Sunday November 30 at 2003 the 2000 on IRRS SW via AM Italia, 1322.998+, S8.5 into UTwente.

Also confirmed Sunday November 30 at 2257 the 2230 on SW Radio Gold, Germany, 3975.004-, S7/8.5 into UTwente.

Also confirmed Sunday November 30 at 2330 on WRMI 9455, S9/+20 into Georgia SDR.

Also confirmed UT Monday December 1 at 0000 on WRMI 9395, S9/+10 but noisy into Georgia sDR; better S7/S9 into Champaign IL SDR.

Also confirmed UT Monday December 1 at 0030 on WRMI 9455, S9+18 into Champaign IL SDR.

Also confirmed UT Monday December 1 at 0030 on WRMI 7780, S9/+10 into S Texas SDR.

Also confirmed UT Monday December 1 at 0359 on Area 51 webcast.

Also confirmed UT Monday December 1 at 0400 on WTWW 5085, VG direct at substitute time since was off air at 0400 Nov 29. Knoxville SDR had it S7/S9 at 0422, but QRM from clicking on the minus side. Next:

2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2323 monitoring: confirmed Monday December 1 at 2030 on SW Radio Gold, Germany, 3975, JBA into Bedford UK SDR as recommended; had faded way down from tune-in at 2010 for recording to check later.

Also confirmed UT Tuesday December 2 at 0330 on WRMI 7780, VG S9/+5 into S Texas SDR.

Also confirmed Tuesday December 2 at 1400 on WRMI 9955, S6/9 direct.

Also confirmed Tuesday December 2 at 1519 the 1500 on WRMI 9955, S7/9 direct but sounds much weaker in noise level. Next:

2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2323 monitoring: confirmed Tuesday December 2 at 2100 on IRRS SW via AM Italia, 1323 kHz, S9+12 into nearby Noale SDR, preceding program having been chopped off for ID & WOR.

Also confirmed UT Wednesday December 3 at 0030 on Shortwave Radio Gold, Germany, 3975, JBA into recommended Bedford UK SDR, inaudible at UTwente.

Also confirmed UT Wednesday December 3 at 0130 on WRMI 9395, S9+15 into N9AZZ IL SDR, JBA into Georgia SDR, too close. Next:

2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2323 monitoring: confirmed Wednesday December 3 at 2047 the 2030 on SW Gold Radio, Germany, JBA into UTwente with noise QRM on low side; good into Bedford UK SDR but with same QRM.

Also confirmed Wednesday December 3 at 2200 on WBCQ 7490 -40 Hz = 7489.960 into Maryland SDR, higher than usual; calibration not rechecked, S9/+10. Next:

0030 UT Thursday WRMI 9395 to NNW {confirmed};
0130 UT Thursday WRMI 5010 to S; {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160.

As a noncommercial public service program, financial support appreciated. Thanks this week to Gilles Letourneau, Québec for a contribution via PayPal not necessarily in US funds to:

Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 15770//17790, Nov 28 at 2259, WRMI with heavily African accented barely and ultimately recognized as English on both, then chopped off for separate programming. Supposedly both on System H at this hour, but System H shows 15770 only with R. Prague in English: I think not. System E thinx it has 17790 from WRN during that hour. And WRN has Deutsche Welle, which we know has some African-accented programs, strangely enough. Something`s odd at Okeechobee (Glenn Hauser, OK, WOR)

** U S A. 5850, UT Sunday Nov 30 at 0300 I`m monitoring this WRMI which per FB and website, started a new show last week at 0300-0530 UT Sundays, `Dead Air Radio Crypt` - and there it is after RNEI and RRR CW and SSTV being sent before 0300. But these hours are not accounted for on the skedgrid beyond System E mostly WRN (Glenn Hauser, OK, WOR)

** U S A. 9955, Wed Dec 3 at 2258, WRMI wrapping up `On the Media` from WNYC, host appending request for input from SWLs in particular. I regret not having tuned this every week; however someone reported that the same episode was playing over and over week after week on WRMI. Is that still the case? I`m afraid it is: WRMI server shows the only episode was uploaded March 1, 2025! There are several other times for it on the WRMI schedules (Glenn Hauser, OK, WOR)

** U S A. 9330, Nov 27 at 0723, WLCR on WBCQ still missing; while SMTV is S9+25 on 9395 WRMI. FINALLY back on air with blasting S9+15/25 signal in English, Nov 27 at 1536, since first noted absent Nov 21 at 2320, some ~136 hours. Wonder what was wrong? (Glenn Hauser, OK, WORLD OF RADIO 2323)

** U S A. WBCQ chex pre-`AAAWWW`, UT Sat Nov 29 at 0050 into Maryland SDR, since NH is closed down for the CQ CW DX contest: concerned about cheating?? 3265 and 5130 off. 6160 -75 Hz = 6159.925 JBA S5/S7 music. 7490 -50 Hz = 7489.950, FKB S9/+10. By 0057, 5130 -76 is on with IS and ID, S7/S9 now stronger than 7490- at S7/S8. And 9330 usual WLCR Portuguese. 0100 disclaimer that originally aired Friday Sept 19, 2025: never mind (Glenn Hauser, OK, WOR)

** U S A. 7505, Fri Nov 28 at 0735, gospel huxtress in English, S9+15/25. On rare occasions like this, WRNO stays on well into the night, but not necessarily on air from normal 0200 (Glenn Hauser, OK, WOR)

** U S A. 7505, Dec 1 at 0612, WRNO on late again, S9, groupsinging C&Wish song, can`t tell if praise, then live? DJ with ``12 past the hour`` timecheck, song was ``Just Another Day``; 0616 ``another of your favorite songs on 7505 WRNO Worldwide``. Format change? Still on at 0722 now down to S7/S8 VP in Chinese and English. Spelling out English words so apparently English lessons for Chinese (Glenn Hauser, OK, WOR)

** U S A. 7505, Dec 2 at 0755, WRNO is off. Unchecked earlier but on Nov 28 was still on at 0735, Dec 1 still on at 0722 (Glenn Hauser, OK, WOR)

** U S A. 4840, UT Sunday Nov 30 at 0126, `Wavescan` for Nov 30 is already starting early on WWCR instead of 0130 (Glenn Hauser, OK, WOR)

** U S A. 9275, Dec 1 at 1626, WMLK with DEJOM huxtering, night frequency on in the morning instead of usual 15150. Are they experimenting, or just unreliable? 1935 check, not on 17525 nor either of the other two (Glenn Hauser, OK, WOR)

** U S A. 9275, Dec 1 at 2306, S9+20/30 of off-key singing as WMLK manages to run correct evening frequency on a non-Sabbath (Glenn Hauser, OK, WOR)

** U S A. 780, Dec 1 at 0640 UT, `StarDate` on WBBM 105.9, never mind insignificant AM 780, but episode heard before, yesterday? on another station. WBBM always deletes SD`s own intro specifying the Date! So when Billy specifies something to see ``tonight`` or ``tomorrow`` it`s unknown what day he axually refers to! Also *Date was unusually totally missing the night before as WBBM continued talking about stupidballgames (Glenn Hauser, OK, WOR)

** U S A. 1080, Fri Nov 28 at 0805 UT, ``EWTN`` mentioned in English under KRLD. NRC AM Log shows EWTN only once on 1080: WRYT Edwardsville IL U7 500/20 watts.

https://www.ewtn.com/radio/affiliates-list
on 1080 only gets Edwardsville IL/St Louis MO, both WRYT and WYRT, the second obviously? a typo!

But Relevant Radio, another RCC network, also has 1080 stations with a bit more potential power per NRC AM Log: WGOS* Coral Gables FL, U4 50000/10000; and WHOO Winter Park FL U4 6000/55 watts. The question is, whether Relevant would ever, such as now, be carrying an EWTN program. Can`t find an EWTN Radio program sked, but Relevant Radio

sked shows in CST for this date: ``1:00am The Drew Mariani Show™ (Encore)`` But the EWTN website gets no hits searching on that name.

radio-locator.com for WRYT 1080 shows its website is https://ourcatholicradio.org which is a.k.a. Covenant Network

WRYT nighttime coverage map is somewhat oval favoring NW/SE and a slight indentation to the SW; while daytime map has a huge lobe toward the SW, i.e. meward, when KRLD does not need protexion. https://radio-locator.com/cgi-bin/pat?call=WRYT&service=AM&h=D So the evidence points to WRYT on day power and pattern. Normally KRLD does not suffer any such CCI here (Glenn Hauser, OK, WOR)

** U S A. Re my 1090 WCRA report: ``1090 WCRA IL was strong all last week at night and even heard on south antenna from Ontario. Perhaps the only reason I'm not hearing it this week is that I'm not at my DX site. Saul Chernos`` Nov 27 (Glenn Hauser, OK, WOR)

** URUGUAY [and non]. 28410 USB, Dec 2 at 2310, Paul, CX7RA making quick contacts including a 6Y5, then turns it over to Van, CX6RW. QRZ.com: name Paul doesn`t match so maybe miscopied call; anyhow: ``CX7RA Uruguay flag Uruguay, ERASMO ANIBAL FONTAO GARCIA, OFICIAL 3 NO.563, SAN CARLOS MALDONADO 20400, Uruguay`` and:

``CX6RW Uruguay flag Uruguay, ESTEBAN "BAN" PEREZ, Calle Amatista y Galena Brio. La Fortuna MALDONADO, Chalet "Virgen del Rosario" Tel Cell. & WhatsApp +598 99 908 514, MA 20000, Uruguay`` (Glenn Hauser, OK, WOR)

** URUGUAY. 28395 USB, Dec 3 at 2307, CX7RM, fonetik ID in English, heard again. QRZ.com: ``CX7RM Uruguay flag Uruguay, Pablo Goldaracena Sommaruga, Pinares Calle Sagitario, Punta del Este 20005, Uruguay`` (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Nov 27 at 0724, R. Vanuatu is JBA but better than usual in talk. Ron Howard reports that on Nov 26 they were on 5040 by 1032, altho still on 7260 after 0700, so moving at 0758? More changes expected from December (Glenn Hauser, OK, WORLD OF RADIO 2323)

** VANUATU. 7260, Nov 28 at 0809, no signal from R. Vanuatu, but it was JBA during previous hour, so must have QSYed to 5040. Ron Howard agrees: ``Hi Glenn - Yes, confirmed on Nov 28, that Radio Vanuatu on 7260 has a cut off time of 0758:0* UT, switching to 5040 within a matter of seconds (so it's on at *0758), heard via a Kiwi SDR remote at Marahau, NZ. Ron (Monterey, Calif.)`` (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Nov 29, since I am unfortunately awake at 0758, I hasten to tune to R. Vanuatu, with BFO just in time to hear it cut off. In the few sex it takes me to retune to 5040, a similar JBA signal is there, tho I can`t say for sure that it just came on. This matches Ron Howard`s observation (Glenn Hauser, OK, WOR)

** VANUATU. 5040, Dec 2 at *0758 JBA carrier, presumed RV just moved from 7260 JBA carrier (Glenn Hauser, OK, WOR)

** VATICAN. 17800, Nov 27 at 1529* tune-in just in time to hear VR IS and off; retune to stronger 15565 at 1530 VR IS, ``LIX`` catch-phrase, opening Ethiopian language, S9+5/15. One of best signals on band as we continue to marvel at how well SMG broadcasts into the opposite direxion of nominal targets. 17800 was Malayalam to S Asia, 250 kW at 98 degrees; 15565 Amharic to E Africa, 250 kW at 139 degrees, so directly off the back would be 319 degrees toward N America (Glenn Hauser, OK, WOR) See also MALI [and non]

UNIDENTIFIED. 397, 402, 419 kHz, Nov 29 at 0656/0659 UT, JBA MCW

carriers where I don`t normally detect any ND beacons. RNA list shows possibilities, in order of proximity, in each case only 3 in all of North America:

397: JE JEfferson City MO, SB San Bernardino CA, OW nOrWood MA.
402: CV Carlsbad NM, L4 Nipawin SK, MQ MiQuelon
419: GB Great Bend KS, RYS Detroit MI, TX Lawrenceville GA

All of these have been reported this year, mostly this month (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 383 MCW kHz, Nov 30 at 0713, JBA ND beacon seems MR. Not in RNA list, but in case it were really on 385, there is EMR, 400 watts, `Emory`, Augusta GA. There are two in France including MR in 3-letter calls, surely not (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Re my 610 report, this from Saul Chernos, Ont.: ``I had a Mexican anthem a few years ago on 610 from Ontario. Even the experts couldn’t make out actual identifiable details... so it remains a viable target`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. TA JBA MW carrier search, Nov 30 at 0100 UT: 711 which could be Cuba instead of Western Sahara, and JJBBA on 855, still Spain at reduced power? and 1098, UKOGBANI? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Nov 16 reply to this was just found Nov 30, as like so many ABDX posts, it was in spam folder: Re: "UNIDENTIFIED. 810.58, Nov 15 at 0738 UT, JBA carrier hetting 810.0 WHB. Often heard, on slightly varying frequencies. Anyone else? No het from above 660 audible now (Glenn Hauser, OK, WOR)"

``It's all over my recordings from the Nevada-Utah border again (Oct 23-28). This time it was audible up to 1300 UT, which really limits the possibilities if it is an actual broadcast station. I think I've eliminated all possible US stations except KXOI. I just need to double-check that I have a recording that shows KSWV is on frequency. I also think I've eliminated all the reasonable possibilities in Mexico, discounting XEFW (sporadic operation at very low power) and XEHT (unlicensed for years and believed off now, remaining active only on FM). At this point I strongly suspect it is either KXOI or something other than a licensed broadcaster. HTH, Tim Hall``

Per NRC AM Log, KXOI is: Crane TX, U4 1000/500, ``La Nueva Radio Alabanza``- Crane is just south of Odessa. Another reply from Tim Nov 30:

``Hi Glenn, In the meantime, I've found a Border Inn recording with KSWV operating on frequency, which seems to leave KXOI as the only unaccounted-for station likely to come in at that late hour. For what it's worth, KXOI was a nightly catch (even a bit of a pest) at the Border Inn before they went on and off the air for a few years. I have not logged them since 2019. They returned to the air in September 2021. I need to check my 2021 and 2023 DXpedition recordings to see if the signal was logged then (there was no 2022 DXpedition due to my wife's health). I know the mystery signal was logged on both my 2024 and 2025 DXpeditions, and I think the only audio I noted was some possible light Spanish language music. KXOI certainly seems plausible. 73 Tim`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4017 USB, UT Sat Nov 29 at 0126, JBA 2-way net, MARS or something. Yes: Klingenfuß 2022 shows ``many USAF MARS stations`` and nothing else on 4017 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7298.0-7316.4, Nov 27 at 0725 a bunch of JBA carriers beating against each other, about 1.6 to 1.7 kHz apart, but nonesuch

elsewhere on the spectrum tuned, so real rather than birdies? 7298.0, 7299.66, 7301.36, 7303.0, 7306.36, 7308.0, 7309.7, 7313.0, 7314.7, 7316.4 approx. (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11760 & 12095, Nov 27 at 0721, JBA carriers are the OSOB in degraded propagation, probably CNR1 China rather than Cuba, and BBC French via Ascension respectively (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 25955 LSB, Dec 3 at 2316, correct frequency! apparent freebander mentioning frequency in Brasuguese and 20:16 localtime in Paraná, interspersed with beeps, S1/S3. Some other similar signals inside the so-called 11m SWBC band (Glenn Hauser, OK, WOR)
